1 Year Manufacturer's Warranty

Guarantees the quality of all thermofoil, MDF, and solid wood doors for a period of one year from date of shipment. This manufacturer's warranty applies only to products that were properly handled, and stored in suitable conditions. This warranty will not be applicable to products which were modified, repaired, or otherwise altered in any way by any other person than decotec or one of its authorized representatives.

Furthermore, this warranty does not apply to the deterioration of a component, or to the product's surface due to ordinary wear and tear. Our doors are not warranted against expansion occurring as a result of high moisture or humidity conditions. Single panel, five piece doors, drawer fronts, and one piece solid wood products which are over 26" wide or 32" high - are not warranted against warping or cracking of panels or framing joints.

This warranty is limited solely to the value of the original products purchased from decotec. This warranty does not cover any cost of extraneous materials such as: adhesives, stains, paints, etc. Also, this warranty does not cover labor costs such as: finishing, installation, transportation, or any other labor related expenses.

decotec is committed to high quality of products. Our solid wood cabinet doors are sanded multiple times before being shipped out. However, different customers have different expectations, therefore it is important to clarify that it is the customer's responsibility to further sand or touch-up the product before the final finishing process.
